WILMS 990 LITRE FUEL TANK ASSEMBLY INSTRUCTIONS

Tank Assembling Instructions

Withdraw pump, house and oil indicator from the cover. Assemble pump, hose and suction pipe, then screw them into the tank hole. Screw up tightly the indicator in one of the free holes.

The leakage indicator is already pre-assembled in the tank.

Withdraw suction pipe, documents and instruction manual from the quiver. The quiver is no longer needed.

Attention: Fuel hose should be emptied of fuel when not in use.
